Declaration and Notice of Liability

Re: European Spring Appeal: Hope & Accountability

This legal and lawful notice of liability is designed to be used as evidence in court if needed and intends to enlighten you and protect you from attracting civil and criminal liability in relation to your action and all omissions in relation to the alleged SARS-CoV2 (alleged) pandemic and the measures that have/are being taken world wide to allegedly control its spread and effect:

Take Notice:

1. There is no evidence to support a 'SARS-CoV2' medical emergency. Prevention and treatments for influenza like symptoms and illness should have been made available to all patients. To keep these treatments from sick people is causing unnecessary harm. When effective preventions and treatments are made available, there is no necessity for lockdown measures worldwide, such as wearing of masks, quarantining, mRNA gene therapy/vaccines etc.
2. Is there evidence that SARS-CoV2 has been isolated and validated by independent groups world wide?
3. Most, if not all, of the mRNA gene therapies/vaccines are in clinical trials. They are experimental. There is evidence that there has been significant adverse events and death around the world and we fear the long term adverse repercussions may cause significant harms, injuries and loss.
4. Any coercion of people to take SARS-CoV2 mRNA gene therapies/vaccines, whether directly through government legislation, or indirectly through government, police, and army directions, such as COVID19 Passports or by forced injection or coerced injection, without full consent, free consent and informed consent, is unlawful, immoral and unethical. Any sanctions for not taking the injection/vaccination, along with any measures of coercion and implementation of forced or coerced injection/vaccinations, must cease immediately.
5. Infringement of our inalienable rights and freedoms by so-called 'pandemic' laws are unnecessary, unfounded, unconstitutional, undemocratic, unlawful, illegal, criminal, and may incur liabilities on the enforcer and promoters for harm, loss and/or injury caused and must cease immediately. Civil actions may proceed immediately for damages caused by forced and/or co-

erced injections/vaccinations. Infringement of our inalienable rights and freedom, such as the wearing of masks, social distancing, travel and work restrictions, injections/vaccinations, microchipping, quarantining, remaining indoors, are unlawful.

6. Direct and indirect Censorship regarding SARS-CoV2 and related issues, whether under the guise of “fact checking”, untrue or misleading media reporting, omissions, fabrications, outright lies and propaganda from governments, media, medical professionals, medical/drug companies and any other conspirators are to cease immediately or accept full liability and culpability for negligence, harm and injury caused to men and women.
7. If the acts are found to be unlawful and criminal, the crimes committed by individuals, corporations, governments, organisations, and men and women acting in whatever role or capacity regarding the above statements, are crimes against mankind. Failure to comply to this Declaration and Notice of Liability to immediately cease with all unlawful acts, criminal acts, crimes and offences against men and women by 15th of May 2021 may result in criminal prosecution of all perpetrators, and/or civil action, relying upon each country’s constitutions and criminal legislation as well as the Universal Declaration of Human Rights, including but not limited to, continuing the application of the SARS-CoV2 vaccination program. Those offenders committing unlawful acts and crimes against the people will be brought to justice expeditiously.
8. We demand you to provide evidence of the following;
 - (a) SARS-CoV2 has been successfully isolated.
 - (b) SARS-CoV2 injections/vaccines has been thoroughly tested, to ensure safety to all recipients.
 - (c) SARS-CoV2 injections/vaccines protect from SARS-CoV2 infection.
 - (d) SARS-CoV2 injections/vaccinations are not causing more harm than good, and are not causing significant adverse events, are not causing severe adverse events and are not causing death to recipients of the injections/vaccines.
 - (e) SARS-CoV2 injections/vaccination has not caused or led to thousands of deaths of recipients of the injections/vaccine.

Should you fail, refuse or neglect to do so within 14 days of the date of this notice of liability (**demand notice**), it will be taken as your first fault.

9. In the absence and/or refusal of your reply and answers to the above paragraph 8 within the time stipulated, that your silence is validly taken as your assent, agreement and acknowledgement;
 - (a) Your contribution and participation, whether directly or indirectly, consciously or unconsciously, to the SARS-CoV2 program makes you complicit to having caused and causing harm, significant and serious adverse injuries/events and even deaths, loss and
 - (b) You are legally and lawfully liable and culpable for your own actions, as well as your actions in conjunction with others, regarding the SARS-CoV2 injection/vaccination and lockdown programs, and
 - (c) We believe you are at risk of being liable if you do not take appropriate action to attempt, to abate or prevent harm, injuries and/or loss to men, women, children, new and expectant mothers and their babies or the people.
 - (d) All indemnities, warranties, legislation and protections afforded you in relation to damages and injuries caused the common people, recipient victims of the SARS-CoV2 vaccines, are waived and voided, and you acknowledge your personal liability, culpability, vulnerability and accountability for every injured party of a SARS-CoV2 Vaccination.

Naturally, should you express to us in writing in timely manner, and certainly prior to **14 days of this notice**, that all SARS-CoV2 injections/vaccines are withdrawn and all SARS-CoV2 injection/vaccination programs are immediately terminated, that no future Sars-CoV2 or other such sinister vaccination programs will be entertained or created by any government of _____, we will immedia-tely withdraw from, terminate and not pursue, any litigation against you. The withdrawal of litiga-tions also applies, if you, in the time frame given, choose to officially stand behind this appeal.

We anticipate this Notice clarifies our disposition to your various injection/vaccination programs and agendas.

Take Notice you have been fairly and equitably fore-noticed and fore-warned.
